

MARKING MACHINE  
**XCC PROMARK  
T-1000**

## IDENTIFICATION? YOU CAN RELY ON US.

Using good quality cables, wires and electrical components should be a matter of the highest priority. So is ensuring that personnel have the required knowledge and experience when performing installation or maintenance tasks. However, there is another, crucial factor to consider: Legible and durable marking, created using a method that makes it possible to read the description even after many years.

### **Innovation, practicality, reliability.**

This is the main motto and the basic guidelines we follow when offering you our new printer model: PROMARK T-1000. Every solution developed by our experts is a result of many years of work, meticulous research and implemented upgrades. With this new model, we prove that the boundaries for the use of thermal transfer printing are being constantly pushed. Our print durability is second to none, making our products ideal for the most arduous environments.

### **Promark T-1000 is the crowning achievement of our 67-year experience.**

Thanks to the properties of thermal transfer printing, our marking systems comply with the highest standards that installations face, even in the automotive or military industries. Solutions that we propose can be found in both the control cabinets and panel boards of leading generation and power distribution companies, as well as... the London Underground. Basically in all places where safety and reliability matter.

We are confident that we have resolved all of your doubts.

However, if you need advice or help in marking and identification, we are at your disposal.

**We love to talk about these things. After all, we have been doing this for almost seven decades.**

ProMark T-1000 is the latest addition to the ProMark family. The menu of the device is now available in the following languages: Polish, English, German, French, Swedish, Russian, Spanish and Portuguese. The new printer has all the advantages of previous models, such as: low weight, compact size and built-in internal memory, which allows you to work in the field. The electrical symbols library has been expanded with the following special characters:

Templates for each of the profile types that the T-1000 prints onto are stored in the printers menu, which makes it easier to choose an appropriate material and its size. After selecting the marker type, T-1000 automatically sets the text position and adjusts the cutting depth.

Easy to use, the high resolution backlit display and simple QWERTY keyboard make it possible to quickly produce additional markers. Advanced projects can be sent to T-1000 from the latest version of our WinSign software, which enables you to „copy and paste“ directly from Excel spreadsheets.

Another version, the ProMark T-1000C is also available which has a Russian alphabet (Cyrillic) keyboard.

## Profiles to print on:

- PO and POZ profiles with diameters of 1.3 - 5.5 mm (POZ is the halogen-free version)
- PHZ - round, halogen-free, heat shrinkable tubes with diameters 2.4 - 6.4 mm before shrinking
- PHZF - flat, halogen-free, heat shrinkable tubes with diameters 2.4 - 6.4 mm before shrinking
- PP+ profile - height of 4.6 and 9.0 mm compatible with profiles: PT+/PTC/PTZ and PM, PTM, PS
- PP+ profile - height of 6.3, 10.0 and 11.0 mm compatible with Wago connectors (TopJobs), Phoenix Contact, ABB (Entrelec)
- PPA+ - self-adhesive profile
- PO-068 profile - used for marking cables with PKH and POH holders
- T1000-PLL - self laminating marker for wires and cables
- T1000-PL - adhesive tape with a width of 6mm, 9mm and 12mm available in cassettes

## Temperature range

Temperature: 15°C - 32.5°C

Working temperature with the optional profile heater: from 5°C

Storage temperature: 5°C - 35°C

Recommended temperature of profile: 20°C

## Thermal transfer printing resolution:

300 dpi

## Print Speed

18.5 mm/s - low speed mode for profiles

25 mm/s - medium speed mode for profiles and tapes

40 mm/s - high speed mode for profiles and tapes

## Height of text:

1.3, 2, 3 or 6 mm (narrow, normal or wide)

## Maximum number of lines of text

3 lines for profiles and self-adhesive tapes

## Connection with computer

Yes, WinSign T-1000 software + USB cable

## Internal memory

Max 15000 characters

## Number of characters sent from PC at one time

No limit if used with WinSign T-1000 software

## Power:

Adapter 100~240 V AC (50~60 Hz)

Power: 13 W

Certificate with CE mark

## Dimensions and weight

(L x W x H): 250 x 300 x 85 mm

Weight: 2 kg

# ACCESSORIES

T1000-RB-BLACK	black ribbon 100 m
T1000-RB-WHITE	white ribbon 85 m
T1000-CU	cutting unit
T1000-TA	tube attachment
T1000-TA-CLEAN	cleaning kit guide for tube attachment (3 pcs)
T1000-PA	plate attachment
T1000-PA-CLEAN	cleaning kit guide for plate attachment (3 pcs)
T1000-TW	profile warmer
T1000-TW-CLEAN	cleaning kit guide for the profiles heater (3 pcs)
T1000-AF	profile feeder
T1000-HC	aluminium hard case
MK-RS3	small reel stand

# PACKAGE CONTENTS

## **PROMARK T1000**

ProMark T-1000 printer; black starting ribbon 40m, tube attachment, AC adapter, power cable, USB cable, software, soft carrying case, reel stand.

# SYSTEM HIGHLIGHTS PROMARK T1000

An optional aluminium hard case is also available for the printer to provide even greater protection. Its special design allows you to print markers without the need to remove the printer from the case.

Backlit display, QWERTY keyboard and a convenient user-friendly menu make inputting data easy.

Optional automatic profile feeder unwinds profiles from disks or bulk rolls.

The Profile Heater improves the print quality, especially when printing at low temperatures (5 - 18 °C). It can be used simultaneously with automatic profile feeder.

Printed markers are pre-cut to the length set by the operator or, automatically matched to the number of characters on your marker.

Fast USB 2.0 interface and dedicated software allows the operator to import data into the device. Ideal when working with Excel spreadsheets.

Contact us and order your brand  
new ProMark T1000 machine.

# PRODUCT OVERVIEW

# Partex Marking Systems

At Partex, we lead the world in industrial marking systems. We develop and manufacture products for the identification of wires, cables, pipes and components. From the individual electrician to the world's largest companies, our unique marking systems contribute towards increased efficiency and higher safety levels.

Quality and an environmental approach are natural parts of Partex's business and accordingly we are certificated to the ISO 9001, ISO 14001 and IRIS.

## Marking Methods

### SINGLE CHARACTERS

Consists of single character markers that can be combined with each other to give total marking flexibility.

### MULTI CHARACTERS

Allows you to order markers already printed with the complete information in accordance with your specification.

### DO-IT-YOURSELF

Allows you to produce your own markers on site.

## Material

### PVC

PVC stands for polyvinyl chloride, and it contains halogens. PVC has a natural flame decreasing property. It has a long life span and is sufficiently resistant to climatic factors. The material is strong and flexible. The temperatures range is  $-30^{\circ}\text{C}$  to  $+60^{\circ}\text{C}$  ( $-22^{\circ}\text{F}$  to  $140^{\circ}\text{F}$ ).  
ExempleS of products PA, PC, PK, PO, PY, PT+, PM etc.

### ZEREX – Halogen free

Polyether-based thermoplastic, a compound of polyurethane (tpu). Zerex is a halogen free flame proof extrusion compound developed for applications requiring limited smoke and toxin generation. The temperature range is  $-30^{\circ}\text{C}$  to  $+90^{\circ}\text{C}$  ( $-22^{\circ}\text{F}$  to  $+194^{\circ}\text{F}$ ). It has been approved for use in the subway systems of New York. Product with a Z is halogen free, such as PAZ, PKZ, POZ, PTZ etc.

## Directives

### RoHS

The RoHS Directive aims to reduce the risks to human health and the environment by replacing and restricting hazardous chemical substances in electric and electronic equipment. The Directive also aims to improve the prospects of cost-effective and sustainable recycling of material waste from electronic and electronic equipment.

RoHS = Restriction of the use of certain Hazardous Substances in electrical and electronic equipment.

<http://eur-lex.europa.eu/>

### REACH

Regulation (EU) No 907/2006 concerns the registration, evaluation, authorisation and restriction of chemical substances. It also contains requirements addressed to the users of chemicals, unlike previous legislation.

REACH = Registration, Evaluation, Authorisation and restriction of Chemicals.

## SRP/SRC - STORAGE BOX

### SRP

- Robust steel plate storage box for Partex compacta discs.
- Detachable upper tray for cable accessories.

### SRC

- A cardboard storage box for Partex compacta discs.

## PC - OPEN CLIP-ON COMBINATION MARKER

- Open marker sleeve for already connected wires.
- Simple "clip-on mounting" for secure, highly legible identification.
- Twist-protected for secure combination marking.
- Yellow or white with black print as standard. 0-9 in international colour code. Special colours on request.

Type	Diameter mm	Area mm <sup>2</sup>	AWG	Length mm	No. of characters	Marker height mm	Marker width mm	Text height mm	STRIP PACK Cut/loose markers or strips

AWG and mm<sup>2</sup> sizes for guidance only

## PK/PKZ/POK - COMBINATION CABLE MARKER

### PK / POK

- Easy mounted onto PKH/POH holders to fit any size of cable, tube or pipe.
- Yellow or white with black print as standard. 0-9 in international colour code. Special colours on request.
- PK is available in Halogen free material (ZEREX).

### PKH / POH

- Holders, easily mounted with cable ties

Type	Diameter mm	Length mm	Number of characters	Marker height mm	Marker width mm	Text height mm	STRIP PACK Cut/loose markers	COMPACTA DISC Semi cut markers

PKS10120	Holder	10,3 x 128,0	4,8	20	50 pcs/bag

Type	Description
PKS10006PP.#	Strips of characters. # = A-Z, 0-9 etc.
PKS10GR100	<b>Compartment storage box, marker set 1:</b> 5 marker strips at 10 markers of each of the following characters: 0 1 2 3 4 5 6 7 8 9 + - ~ = EARTH / . : and blank. Holder PKS10040FQS (50 pcs), PKS10060FQS (50 pcs) and PKS10120FQS (50 pcs) and cable ties (100 pcs).
PKS10GR200	<b>Compartment storage box, marker set 2:</b> 5 marker strips at 10 markers of each of the following characters: A B C D E F G H J K L M N O P Q R S T U V W X Y Z Å Ä Ö Ü ( and blank).
PSK55000-PKS	<b>Compartment storage box:</b> 50 of each of the following character: A B C D E F G H I J K L M N O P Q R S T U V W X Y Z, 0 1 2 3 4 5 6 7 8 9, /, GRD, +, -, cable ties (300 pcs), holders PKS10060FQS (50 pcs) and holders PKS10100FQS (100 pcs).
Stainless cable ties	Available in lengths of 150/200/360 mm. Width: 4.6 mm.
PKS10MT	Manual tie fixing tool
PKS10GS4MT	Automatic tie fixing tool

## PM - TRANSPARENT CABLE MARKER HOLDER

- Transparent holder for marker tags PF, PFC and PP+ profile.
- Mounted with cable ties.

Type	Punched profile	Length mm	Width mm	Width of punched hole mm	Packaging
PM-10	No	33	6.0	3.0	100 pcs
PM-20	No	33/45/66	11.3	3.0	100/50 pcs depending on marker size

AWG and mm<sup>2</sup> sizes for guidance only

## PT+/PT+PFC/PTZ+/PTM - CABLE MARKER HOLDER

- PT+ Transparent sleeve with pocket for marker tag PF, PFC042 and PP+.
- PT+PFC Transparent sleeve with pocket for marker tag PFC.
- PTZ+ Coloured sleeve with transparent pocket for PF, PFC and PP+ profile.
- PTM Transparent sleeve with wings for marker tag PFC and PP+ profile.

PT+/PT+PFC

PTZ+

PTM

### PT+ TRANSPARENT SLEEVE WITH TRANSPARENT POCKET

Type	Diameter mm	Area mm <sup>2</sup>	AWG	Sleeve length mm	Loose, sleeves in bag	Suitable tags

PTZ+20	4.0 - 10.0	~2.5 - 16.0	~13 - 4	12/15/18/21/30	100 pcs	PF, PTC, POZ
PTZ+30	8.0 - 16.0	~16.0 - 75.0	~6 - 2/0-3/0	12/15/18/21/30	50 pcs	PF, PTC, POZ

AWG and mm<sup>2</sup> sizes for guidance only

### PTM TRANSPARENT SLEEVE WITH WINGS

Type	Sleeve length mm	Loose, sleeves in carton box	Suitable tags
PTM10	23/30	500 pcs	PP+, PFC
PTM20	20	500 pcs	PFC

## PFC CARDS

- PFC marker tags in halogen free material. Available in white or yellow.
- Printing in card thermal transfer printer, fits PT+, PT+PFC, PTC, PTM and PM.

Type	Description	Marker tag length mm	Marker tag height mm
PFC042	Marker tag for cable marker	12 / 15 / 18 / 21 / 30	4.2
PFC07533	Marker tag for cable marker	33	7.5
PFC09518	Marker tag for cable or component marking	17.5	9.5
PFC095	Marker tag for cable marker	40 / 80	9.5
PFC07014	Marker tag for component marking	14	7.0
PFC12726	Marker tag for component marking	25.4	12.7
PFC45080	Marker tag for component marking	80	45.0

## PF - MARKER TAGS FOR TRANSPARENT HOLDER

- PF marker tags are made of semi-rigid, halogen free, polyester foil in A4 size.
- Fits PT+, PTZ+, PTC, PM and PS transparent holders.

Type	Width mm	Length mm	Number of labels per sheet	Number of sheets per pack	Description
PF-10015	4.6	15.0	792	10	Yellow or White
PF-10021	4.6	21.0	594	10	Yellow or White
PF-20018	9.5	17.5	352	10	Yellow or White
PF-07533	7.6 - 7.8	33.0	100	10	White
PFA20018	9.5	17.5	352	10	Yellow or White with adhesive

## PP+/PPA+ PROFILE

### PP+

- Flat hard marker tag profile for PT+, PTC, PTM and PM etc.
- Developed for easy printing on site in the ProMark system.

### PPA+

- Flat hard profile with adhesive tape for component marking.

Type	Description	Compacta disc width mm	Compacta disc length m	DN-Reel length m
PP+profile	Flat hard profile	4.6 / 6.3 / 9.0 / 10.2 / 11.0	17	50
PPA+profile	Flat hard profile, adhesive	9.0	10	25

## PS - CABINET AND COMPONENT MARKING

- PS is a universal system for marking of control panels and components.
- PS is available as pre-printed markers and as production on site.
- 1 module = 17.5 mm.

Type	Description	Module length	Qty pack
PS-20 *	White marker with black text or transparent modules	1/3 , 1/2 , 1 , 1 1/2 , 2 , 3	20/50 pcs <sup>1</sup>

\* = Desired character, ( A, B, C, 1, 2, 3 etc.)

\* = Strips of 12-number sequenses, 1-12, 13-24, 25-36, 37-48, 49-60, 61-72, 73-84, 85-96, 97-100

<sup>1</sup> = 20 Letters or 50 Numbers.

Type	Description	White	Transparant	Length mm	Width mm	Qty pack
PS-20000	PS profile. Neutral, no text	PS-20000K9	PS-20000KT	1000	12.9	10x1m

Type	Description	White	Black	Length mm	Width mm	Qty pack
PS-20BP	Base profile with adhesive	PS-20BPV	PS-20BPS	1000	11.6	10x1m

Type	Description	Diameter mm	Max. thickness of installation surface mm	Qty pack
PS-R6	Plastic rivet for fixing base profile rail	3.0	0.5 - 1.5	100 pcs
PS-R7	Plastic rivet for fixing base profile rail	3.0	1.5 - 2.5	100 pcs

## TX - TERMINAL BLOCK MARKING

- TX terminal block markers fit most common terminal blocks.
- TX is available in pre-printed, customized and for production on site.

Type	TX marker lengths mm	TX marker width mm	TX marker height mm	Strips/bag
TX-96	5.0 / 5.2 / 6.0 / 6.2 / 7.3 / 8.0 / 8.2 / 10.0 / 10.2 / 12.0 / 14.1 / 15.1	9.6	4.0	10 strips
TX-61	5.1 / 6.1	6.1	2.8	10 strips

## PPQ - CABLE MARKER

- Available both pre-printed and as blank profile for print on site with for example MK10 / MK10-DH.
- Colours are white and yellow.
- Easy mounted with a cable tie to fit any size of cable, tube or pipe.

Type	Length mm	Width mm	DN-reel
PPQ10	40 / 60 / 80	10	20 m
PPQ19	40 / 60 / 80	19	20 m
PPQ38	60 / 80 / 100	38	20 m

## PO/POZ PROFILE

- Very fast, one hand mounting onto cable or wire.
- POZ: Halogen free material.
- Standard colours are yellow and white. Other colours on request.

Type	Diameter mm		Area mm <sup>2</sup>	AWG	Compacta disc	DN-reel	Reel			Box

## COMPARTMENT STORAGE BOX

- Available in 5 different models; PA1, PA2, PA02, PK2, PKS
- Transparent lid for perfect overview
- Easy to refill with Partex standard products

Type	Description
PSK55000 - PA1	49 removable compartments containing PA1 markers: A-Z, 0-9, - /, GRD, +, -, Blank, L1, L2, L3, N, Teflon-coated installation tool in stainless steel
PSK55000 - PA2	50 removable compartments containing PA2 markers: A-Z, 0-9, - /, GRD, +, -, Blank, L1, L2, L3, N
PSK55000 - PA02	49 removable compartments containing PA02 markers and installation tools: A-Z, 0-9, - /, GRD, +, -, Blank, L1, L2, L3, N, Teflon-coated installation tool in stainless steel
PSK55000 - PK2	40 removable compartments containing PK2 markers, holders and cable ties: A-Z, 0-9, /, GRD, +, -, POH07 holders, POH12 holders, PKB25100A9 cable ties, PKB25100A0 cable ties
PSK55000 - PKS	40 removable compartments containing PKS markers, holders and cable ties: A-Z, 0-9, /, GRD, +, -, cable ties PKS46150AN16, holders PKS10060FQS, holders PKS10100FQS

## SP/SPZ - SPIRAL TUBING

- Spiral tube for fitting of cables, conductors, tubes, wire bundles etc.
- Excellent protection against mechanical wear.
- SPZ: Halogen free material.

Type	Available as Halogen free	Internal diameter, mm	Internal diameter, inch	Box Pack unit	
SP-08100	No	8	.315	100 x 1m	1m
SP-10100	Yes	10	.394	60 x 1m	1m
SP-15100	Yes	15	.590	40 x 1m	1m
SP-20100	Yes	20	.787	40 x 1m	1m
SP-25100	Yes	25	.984	30 x 1m	1m
SP-30100	Yes	30	1.181	20 x 1m	1m
SP-40100	Yes	40 / 42	1.575 / 1.654	10 x 1m	1m
SP-50100	No	50	1.968	4 x 1m	1m

### SPH-1

Snap-into fastener of spiral tube in holed mounting plates. 100 pcs in one bag

## CABLE TIES

- Self-locking with high firmness
- Shaped end for easier insertion through the cable tie head
- Available for indoor and outdoor installation

Type	Description
Stainless Steel	Stainless steel cable ties for tough environments. Available in both uncoated and pure polyester coated 316 grade stainless steel.
Standard	Cable ties of high quality Nylon 6.6.
UV resistant	Ultra-violet resistant cable ties, specially manufactured with extra carbon added.
Metal detectable	A blue nylon cable tie with metal content spread throughout the material. Detectable by standard metal detectors. For the e.g. food-, pharmaceutical- and chemical industries.
Metal barbed	A smooth cable tie with a stainless steel "barbed tooth" providing higher flexibility and higher strength for demanding environments
Accessories	Cable fixings, cable tie bases, mounts and tools.

## PLS - PARTEX LABEL SYSTEM

- Labels for cable and component marking.
- Available for indoor and outdoor use.
- Print your own labels with laser- or thermal transfer printer.

Type	Description
PLL	Adhesive labels in polyester for laser printer. Colours: Yellow, white, silver.
PLT	Adhesive labels in polyester on roll for thermal transfer printer. Colours: Yellow, white, silver.
PLB	Pre-printed labels with standard symbols, numbers and letter. Colours: Yellow.
PLD	Dispenser with pre-printed labels (rolls). Colours: Yellow, white.

## PROSLEEVE

CABLE MARKERS

PANEL LABELS

HEAT SHRINK TUBE

- Series of high-specification heat shrink, cable marker and panel label system in ladder format.
- Developed to meet a specific demand; such as fire safety, high temperature, military standards etc.
- Pre-printed or to be printed on site with a thermal transfer printer.

Type	Description
CMZ	ZERO HALOGEN. Cable marker made of zero halogen, crosslinked UV stabilised polyolefin with low toxicity.
CML	EXTENDED FIRE SPECIFICATION. Cable marker made of zero halogen, crosslinked UV stabilised polyolefin with low toxicity. London underground approved.
CMT	EXTREME TEMPERATURE. High temperature rated, flexible, highly flame retardant, polyvinylidene fluoride printable cable markers. Excellent chemical and mechanical properties.
CMD	DIESEL SPECIFICATION. CMD meets printing and fluid resistance standards of SNCF NF F 00-608 type H, SAE-AS5942, as well as MIL-STD-202 Method 215K and SAE-AMS-DTL-23053-6 class 1 standards.
CMM	MILITARY GRADE. CMM meets printing and fluid resistance standards of NF F 00-608 type H, SAE-AS5942, as well as MIL-STD-202 Method 215K and SAE-AMS-DTL-23053-6 class 1 standards.
EPL	ENHANCED PANEL LABELS. Innovative labels specifically designed to replace engraved and plotted plates.
EPF	ENHANCED PANEL LABELS LOW FIRE HAZARD. EPF are made of low fire hazard zero halogen, self extinguishing, crosslinked UV stabilised polyolefin with low toxicity. It is mostly used for mass transit and underground applications
SG	STANDARD GRADE. Flame retardant UL224 VW-1 Flammability. Self extinguishing. Shrink Ratio 2:1
HF	HALOGEN FREE. Low smoke, flame retardant heat shrinkable tubing. Shrink Ratio 2:1
MS	MILITARY SPECIFICATION. Very flexible, high temperature rated, highly flame retardant, UL and CSA recognised heat shrinkable tubing. Shrink Ratio 3:1
NF	NF DIESEL SPECIFICATION. Diesel resistant sleeve meet the material and physical property requirements of SEA-AMS-DTL-23053-6 Class 1. Shrink Ratio 3:1
ET	EXTREME TEMPERATURE PERFORMANCE. High temperature rated, flexible, highly flame retardant, polyvinylidene fluoride printable sleeves. Excellent chemical and mechanical properties with low friction surface. Shrink Ratio 2:1
EF	EXTENDED FIRE SPECIFICATION. Flame retardant, zero halogen, low smoke, low toxicity cross linked UV stabilised and printable polyolefin. Meets London Underground Limited Standard 1-085. Shrink Ratio 2:1

## MK500 - PLOTTER

- Provides complete multi character marking for cables, wires, terminal blocks and components.
- Prints on PA+, PC, PK, POH, PFC, TX, and PS products.

### THE BASIC MK500 KIT INCLUDES

Plotter MK500  
Software PMS  
Printer Cable

### DESCRIPTION

Print: Plotter pens with etching ink  
Speed: 5 to 40 mm/s  
PC connection: USB or RS232  
Profile types: Pre-cut profiles

## MOCA - THERMAL TRANSFER PRINTER

- Complete marking system for cable, wires and components.
- Thermal transfer printing onto Partex PFC cards.
- Windows based printer controlled by Partex software WinSign.

### THE BASIC MOCA KIT INCLUDES:

MOCA card printer  
Software Winsign  
Ribbon  
Printer cable

### DESCRIPTION

Print: Ribbon, thermal transfer printing  
Speed: 500 cards/hour  
PC connection: USB  
Profile types: PFC-cards

## PROMARK T-1000 - THERMAL TRANSFER PRINTER

- Compact, portable and robust printer for cable, wire and component marking on site.
- Feeds, prints and cuts Partex PO/POZ, PP+, PPA+, PHZ and PL/PLL.
- USB connection, controlled by Partex software WinSign.

### THE BASIC T-1000 KIT INCLUDES

PROMARK T-1000 Printer  
Software Winsign  
Power cable, USB cable, AC adapter  
Ink ribbon (40 m)  
Tube attachment  
Reel stand  
Soft carrying case  
PO-05 profile, PO-068TW profile

### DESCRIPTION

Print: Ribbon, thermal transfer printing  
Speed: 18,5, 25 or 40 mm/s  
PC connection: USB  
Profile types: Continuous profiles  
Tape cassettes

## MK10/MK10DH - THERMAL TRANSFER PRINTER

- Compact heavy duty printer for high demand production.
- Feeds, prints and cuts bulk Partex profiles and self-adhesive profiles.
- USB connection, controlled by Partex software WinSign.
- Single or dual printer head.

### THE BASIC MK10 KIT INCLUDES

MK10 Printer  
Software WinSign  
USB cable  
Power Cable  
Ribbon  
Cutting unit

### DESCRIPTION

Print: Ribbon, thermal transfer printing  
Speed: 125 mm/s  
PC connection: USB  
Profile types: Continuous profiles

## EOS1- THERMAL TRANSFER PRINTER

- Small table printer for high demand production.
- Feeds and prints Partex profiles and self-adhesive profiles.
- USB connection, controlled by Partex software WinSign.

### THE BASIC EOS1 KIT INCLUDES

EOS1  
USB cable  
Power Cable

### DESCRIPTION

Print: Ribbon, thermal transfer printing  
Speed: 125 mm/s  
PC connection: USB  
Profile types: Continuous profiles

## PE - PARTEX ENGRAVED SIGNS

- Laser engraved signs in plastic, aluminium or stainless steel.
- Available in multiple colors and sizes.
- Self adhesive back for easy mounting.

# PRODUCT OVERVIEW

---

---

TRANSPORT

## ABOUT PARTEX

PARTEX develops manufactures and markets marking systems for cables, wires, pipes, hoses and electric components.

These systems are characterised by versatility, usefulness and quality.

70% of PARTEX products are exported and the company is represented in about 70 countries, either company subsidiaries or distributors. The PARTEX MARKING SYSTEMS are used in the electrical industry.

Marking is as common in OEM, end-user and installation industries.

Correctly carried out marking reduces costs of service and maintenance, reconstruction and extension, as well as loss of production. PARTEX marking will particularly ensure such reduction.

Quality and an environmental approach are natural parts of PARTEX's business and accordingly we are certified to the ISO 9001 and ISO 14001 standards.

**REACH**

**WEEE**

**✓ RoHS**

## HALOGEN FREE

**The demand for halogen free products started after the fatal underground fire in London 1987. Every year more and more companies upgrade their installations with products that are halogen free. We at PARTEX aim to give you a halogen free alternative (ZEREX) to all our products.**

The halogens are five non-metallic elements found in group 17 of the periodic table. The term "halogen" means "salt-former" and compounds containing halogens are called "salts". All halogens have 7 electrons in their outer shells, giving them an oxidation number of -1. The halogens exist, at room temperature, in all three states of matter:

STATE	HALOGEN
Solid	Iodine, Astatine
Liquid	Bromine
Gas	Fluorine, Chlorine

With halogen free markers says it is normal to a product that does not contain PVC. Halogen free products are often a requirement in new projects and is slightly more expensive than ordinary products.

The reason for the use of halogen-free markers is that when PVC burns it releases chlorine contained in the plastic, that can react with water (used to extinguish the fire) to form hydrochloric acid-smoke. Hydrochloric acid is highly toxic if inhaled.

The toxicity of smoke is of highest concern within enclosed spaces where means of escape by persons are limited; examples include mass transit rail cars, ships, and Offshore Oil and Gas platforms. There have been several tragic fires that have occurred involving transit vehicles over recent years that have brought heightened concern to this issue. In a February 2003 incident, news reports of a fire involving two trains in a Daegu, South Korea subway station told of how toxic fumes and heavy black smoke prevented firefighters from making a quick rescue of those trapped. 120 were killed and many others injured in that incident.

Common "Halogen-Free" Terminology:

- ZEREX (PARTEX)
- Halogen Free
- Zero Halogen
- No Halogen
- 0H
- ZH

**PAZ** is a closed wire marker that is available in different sizes. The different sleeves can be mounted on a wire with the diameter of 1.3 up to 16.0 mm. This profile is available as both single and multi character marking. The characters are printed with black etching ink with high resolution. The standard colours for PAZ are yellow and white, but other colours on request.

**PKZ** is a cable marker that is available as both single and multi character marking. Single characters can be combined on a holder and mounted on the wire with cable ties. Multi character marker can be mounted on a holder, but can also be punched so that you can tread a cable tie through the marker. The characters are printed with black etching ink with high resolution. The standard colours for PAZ are yellow and white, but other colours on request.

**POZ** is an oval marking profile with a diameter range from 1.3 to 28.0 mm. The profile is delivered as continuous tube on big reels, compactdiscs or strips in cartons for marking on site. The marker information can be printed by using printers such as MK10, SP2000 and MK9 ProMark. The standard colours for POZ are yellow and white, but other colours on request.

**PCZ** is an open wire marker with a diameter range from 2.4 to 7.2 mm. This profile is only available as multi character marking. The characters are printed with black etching ink with high resolution. The standard colours for PCZ are yellow and white, but other colours on request.

**PHZ & PHZ-F** is a thin wall zero halogen shrinkable tubing with excellent fire safety characteristics. This is allied to low smoke emissions and evolution of acid gases. The profile has a shrink ratio of 2:1 and can be printed on site with Partex marking equipment. We can also print on the tube if you send us a document with the marking information. The profile has a diameter range from 1.6 to 51.0 mm.

The **PTZ+** sleeves are designed for X-Card PFC tags, PF foils and PP-profile. The sleeve consists of a yellow basic sleeve and a transparent oval pocket. For other colours, please contact Partex.

PTZ+15, PTZ+25 and PTZ+35 sleeves are designed in special dimensions with wider pocket for larger labels in order to accommodate more marking information.

**PPQZ**, is a profile with pre-punched cable markers that can be cut and printed on with the MK10 system. The profile is delivered on a big reel with over 300 markers (20m). The marker is mounted on a cable by using cable ties more marking information.

**SPZ**, a flexible spiral tube for fitting cables, conductors, tubes, wire bundles etc.

## MANUFACTURERS

**To meet the customer's specifications and different standards, many train manufacturers use PARTEX halogen free wire markers for their projects. They send us their wiring lists by email and in a matter of days they will receive the complete sets of pre-printed markers at their production site**

The markers are sorted and packed according to their requirements, making the application procedure quick, fail-safe and cost effective.

Correct marking will increase efficiency and safety. End users are seeing the value of marking. Contractors and installers see that they can add value to their services by including marking. The amount of time saved when a technician troubleshoot a properly administered cabling system versus an unlabeled system. It can be minimized through proper management.

For more than 40 years PARTEX has been a supplier to the Swedish railway industry, and now PARTEX deliver marking systems worldwide. The specifications and demands in this industry are among the toughest in the world. Quality and environmental concerns are of uppermost importance in the PARTEX organization.

Some companies that are using PARTEX products.

- **ABB**
- **ALSTOM**
- **BEHR**
- **BOMBARDIER**

## PA+ / PAZ - WIRE MARKERS

123 M2

123 M3

- **PA+ with unique patented grooves for easier mounting and flat top for improved readability.**
- **Multi-character marking on one single sleeve.**

+ Available in PVC (PA+) or halogen free (PAZ) material.  
+ Diameter range from 1.3 mm up to 16.0 mm  
+ Can be printed on site with PARTEX printers or ordered customized with the marker information you want. (M2)

## PK / PKZ - CABLE MARKERS

123 M2

123 M3

- **A cable marker that can be mounted on a holder and then mounted on a cable with cable ties.**
- **The Cable marker can also be punched so that it can be mounted directly onto a cable with cable ties**

+ Available in PVC (PK) or halogen free (PKZ) material.  
+ One or two lines of text  
+ Can be printed on site with PARTEX printers or ordered customized with the marker information you want. (M2)

## PO / POZ - CABLE AND WIRE MARKERS

123 M2

123 M3

- **Oval marking profile with sizes for a big cable diameter range.**
- **Customized multi-character marking on one single sleeve.**
- **Permanent marking but still adjustable on cable or wire..**

+ Available in PVC (PO) or halogen free (POZ) material.  
+ Diameter range from 1.3 mm up to 28.0 mm  
+ Can be printed on site with PARTEX printers or ordered customized with the marker information you want. (M2)

## PHZ & PHZF - HEAT SHRINK TUBING

123 M2

123 M3

- **Flexible zero halogen thin wall polyolefin heat shrink tubing for marking.**
- **Diameter size from 1.6 mm up to 50.8 mm**
- **Flexible and easy mounted on cables and wires.**

+ 2:1 shrink ratio.  
+ Diameter range from 1.6 mm up to 50.8 mm  
+ Low smoke generation and evolution of acid gases.  
+ Can be printed on site with PARTEX printers or ordered customized with the marker information you want. (M2)

A photograph of a railway signal. The signal has three circular lenses, all of which are illuminated with a green light. Below the signal is a yellow rectangular sign with the text 'En 33' in blue. The background shows a railway track and some greenery under a clear sky.

## TRACK AND SIGNAL

**Many companies in the Track and Signal industry uses PARTEX as a supplier. They work with third rail electrification, power supply systems, signal works and infrastructure maintenance for main line, metro and light rail systems. PARTEX has markers suited for all applications**

When laying new track or maintenance existing tracks these companies uses PARTEX PKS system. The AISI 316 steel has good resistance to heat, cold, corrosion, acids, chemicals etc. and this makes it an ideal marker to use for marking every cable along the tracks.

The PKS system can be ordered as customized (M2) and we punch in the information you want on each text carrier. The text can be ordered on one or two lines. With the single carrier system you can combine your own information on each carrier with help of single characters.

We use the same carrier for our customized marker as we use for our single character. This makes it possible for you to order a pre-punched text on each carrier and then on site just add a number or text information with single characters.

For example we at PARTEX punch in the information "Signal" and you can add on site the information "1" and "5" with single characters. You will now have a marker with the information "Signal 15"

For other applications you can use customized wire markers such as PA+/PAZ and cable markers PK/PKZ if they will be located in a less hostile environment than the PKS applications.

Some companies that are using PARTEX products.

- **ABB**
- **BANVERKET**
- **BALFOUR BEATTY RAIL**
- **DEUTSCHE BAHN**
- **JERNBANEVERKET**
- **STRUKTON**

## PKS SINGEL CHARACTERS

123 M1

- **Marking can be carried out on site with the help of easy-to-use single-characters, supplied either in refill packs or in complete sets.**
- **Good resistance to heat, cold, corrosion, acids, chemicals etc.**

+ The system comprises marker carriers with holes at either end or as slots for direct threading of steel cable ties, enabling rapid fitting.  
+ AISI 316

## PKS MULTI CHARACTERS

123 M2

- **Text is stamped on the marker carriers themselves, to form complete multi-character markers**
- **Good resistance to heat, cold, corrosion, acids, chemicals etc.**
- **One or two rows of text**

+ The system comprises marker carriers with holes at either end or as slots for direct threading of steel cable ties, enabling rapid fitting.  
+ AISI 316

## PKS-GS4MT

- **Automatic cable tie tensioner and cutter for Partex stainless steel cable ties.**
- **The tool will correctly tension the ties and automatically cut off the tail when this is achieved.**

+ Width: 140mm,  
+ Length: 180mm  
+ Height: 30mm.  
+ Weight: 0.6kg

## PKS CABLE TIES

- **Stainless steel cable ties for hostile environments.**
- **High quality cable ties with good resistance to heat, cold, corrosion, acids, chemicals etc.**

+ Width: 4.6mm,  
+ The cable ties are available as coated and uncoated.  
+ Lengths: 150, 200 or 360 mm.  
+ AISI 316

## MAINTENANCE

**All trains need maintenance, from the simplest train to a bullet train. A train will not make any money during the time it is in maintenance. Therefore it is very important to repair the train and get it to haul cargo or passengers in the fastest way possible. One way to do this is to minimize the time the technician has to troubleshoot. Less time is needed if the cable systems aboard the trains are labeled correctly.**

Time and money is one thing, but the most important reason for identification is SAFETY! Would you troubleshoot a system were the cables contain high voltage and not labeled at all?

It is also very important to make sure that after an upgrade or a repair that the system once again is labeled correctly. This will make it easy to troubleshoot the system in the future.

For a scheduled repairs or upgrades it is very convenient to order multi-character markers from PARTEX. Send your marker information to PARTEX. We will produce it, sort it according to your specifications and then ship them to you on site, ready for immediate application. This may speed up the time needed for the maintenance.

Another solution is to buy one of PARTEX "Do it yourself" systems. These printers are perfect for small series of markers or as a complement to the pre-ordered multi-character markers.

Some companies that are using PARTEX products.

- **BOMBARDIER SERVICE**
- **EUROMAINT**
- **NEDTRAIN**
- **TRAINMAINT**

## MK9 - THERMAL TRANSFER PRINTER

125 M3

- **Compact, portable, ID printer for cable, wire and component marking on site.**
- **Feeds, prints and cuts PARTEX PO/POZ (PO/POZ-02 to PO/POZ-07), PP, PPA and PHZ (PHZ032 to PHZ064) and self adhesive labels (PL)**

+ Print: Ribbon, thermal transfer printing,  
+ Speed: up to 35 mm/s,  
+ PC connection: USB-cable  
+ Profile types: Continuous profiles and Tape cassettes

## MK10 - THERMAL TRANSFER PRINTER

125 M3

- **Compact heavy duty printer for high demand production for wire, cable and component marking. (PO, PHZ, PP, PK etc.)**
- **Feeds, prints and cuts bulk PARTEX profiles and self adhesive profiles.**

+ Print: Ribbon, thermal transfer printing,  
+ Speed: up to 125 mm/s,  
+ PC connection: USB  
+ Profile types: Continuous profiles

## MK10-DH - THERMAL TRANSFER PRINTER

125 M3

- **Feeds, cuts and prints on both sides of bulk PARTEX profiles. (PO, PHZ, PKZ etc.)**
- **Compact heavy duty printer for high demand production for wire, cable and component marking.**

+ Print: Ribbon, thermal transfer printing,  
+ Speed: up to 125 mm/s,  
+ PC connection: USB  
+ Profile types: Continuous profiles

## MK500 - PLOTTER

125 M3

- **Provides complete multi character marking for cables, wires, terminal blocks and components.**
- **Prints on PA+, PC, PK, POH, PFC, TX, and PS products.**

+ Print: Plotter pens with etching ink  
+ Speed: 5 to 40 mm/s,  
+ PC connection: USB  
+ Profile types: Pre-cut profiles

## M2: CUSTOMIZED MULTI-CHARACTER MARKING ON ONE SINGLE SLEEVE

Rational installation with one step mounting procedure saves time and marking costs.

Selection between three packagings consisting of:

1. Semi detached unsorted sleeves in big loops.
2. Customized sorted according to project demands.
3. Sorted and put on a cardboard sheet for excellent overview, random picking and mounting order.

The markers can be printed with black etching ink or on some products with laser. White and yellow are the standard colours, other colours on request.

### MARKING TYPES

1. Closed wire marking: PY, PA+/PAZ and PO/POZ. (PA-3/PAZ3 can be delivered with 1- or 2-line text).
2. Open wire marking: PC/PCZ
3. Cable marking: PK/PKZ and PO/POZ bigger sizes with one or two lines of text. PK2 25 mm and PK2 40 mm punched for direct mounting with cable ties.
4. PO series cable and wire marking from size PO-01 to PO-28.
5. Stainless steel cable markers: PKS with one or two lines of text. With slots for direct mounting with stainless steel cable ties or with holes for mounting with rivets or screws

### MARKING INFORMATION

Transfer of marking information to PARTEX via e-mail (e.g. with enclosed Excel files), fax or mail.

Contact PARTEX for more information.

Single-character markers vs. Multi-character marker

### 1. I.D. DATA

Send us your I.D. information by email, fax or mail to PARTEX. We handle databases, drawings and most PC file formats (Excel, txt-files etc.). Let us take care of your problems!

Send/e-mail to  
[k.order@partex.se](mailto:k.order@partex.se)

### 2. DATA INPUT

Our order processing department formats the information and passes it on to the manufacturing unit.

### 3. MANUFACTURING

Our machines execute the information and the printed markers head for the sorting area.

### 4. SORTING

The markers are sorted according to your request and specifications.

Quality control staff check markers files and finished product before releasing the shipment.

### 5. DELIVERY

Agreements with global freight agents mean quick and correct deliveries worldwide.

The markers arrive at your production site, ready for immediate application.

## TESTS

To ensure that PARTEX MARKING SYSTEMS can withstand all kinds of stresses and strains, they are tested by the Swedish National Testing and Research Institute, where they are subjected to a series of strict tests.

These cover everything from how well the products stand up to mould and rust attacks, to how they withstand fire extreme temperatures, UV radiation and different types of chemical. Some of the tests conducted are listed below:

TESTS	METHOD AND CRITERIA
Flammability	According to UL94.
Temperature – low	Sleeves held at – 30°C (–22°F) for 4 hours. Check for cracks, breakage or similar damage. Also check for mountability and dismountability.
Temperature – high	Sleeves held at + 70°C (+158°F) for 1 hour. If material passes test, repeated checks at higher temperatures are made.
Ageing resistance	Accelerated ageing in heat oven corresponding to use at 20°C (+68°F) for 30 years. Check for cracks, breakage or similar damage. (Max 50% reduction in elongation before breakage.) Also check for mountability and dismountability.
UV resistance	Accelerated test corresponding to iso 4892-2 exposure 1 year outdoors in southern Sweden. Check for brittleness and changes in colour and readability.
Abrasion resistance of marking text	Mounted sleeves kept for 24 hours at +23°C & –2°C (+73.4°F & 28.4°F) immersed in the chemical. Drying for 2 hours then check for functionality, colour fastness and print legibility.  CHEMICALS USED Synthetic diesel oil, Sulphuric acid 2 5 %, Basic cleaning agent (Berol 226, 10%), Distilled water, Sea water (5% NaCl), Transformer oil (Nytro 10x), Ethanol 95%, Other chemicals on request.
Dielectric resistivity	According to IEC 93
Ozone resistance	Test specimens are elongated 33% and exposed to 100 +- 5 ppm ozone at +65°C & –3°C (+149°F & 26.6°F) for 192 hours.

## CONTACT PARTEX FOR DETAILED PRODUCT TEST REPORTS

The partex products are sold with the understanding that the customers of PARTEX will use such products only for and according to the intended use of the said products and only with the intended equipment, accessories and only in the intended environments, as communicated herein or otherwise by PARTEX. In case the customer wishes to extend the use of the partex products to other areas, the customer undertakes to test the products in actual use and determine for themselves the adaptability of the products to such use. partex makes no warranties in regards to the partex products other than those specifically agreed between partex and its customers, neither express or implied or in terms of merchantability or fitness for a particular purpose or otherwise.
